### THE LAND QUESTION.

The rights of various parties, to locate certain land in the vicinity of this city, is becoming a prominent question in this community. We are not the champions of claim jumpers under any circumstances, and where a man has taken an up and improved land, according to law, we believe that any interference with him or his property should be severely punished. This is a right which should be accorded to all, no matter how obnoxious they may have made themselves to any portion of the community, and wherever any parties have made improvements, that give the slightest validity to their claims, we will be the last to defend any person who interferes with them.

We notice that, at the present time, parties are very busily engaged in fencing timberland vacant lots about the city, we presume through fear of their being jumped. This question of city lots can be very easily and effectually settled by the authorities defining the boundaries of the city site, according to the laws of the United States Government, which allow one section of 640 acres for a city site.

At present it is claimed that the city limits of Salt Lake include the Camp Douglas reservation on one side, Warm Springs on another, and equally extended boundaries in other directions. This is a quantity of land that cannot be held except by actual possession or improvements made thereon in accordance with the regulations of the General Land Office, and the question should be settled at once, in order that future claims that are every day arriving may know where to locate homesteads, and thus assist in building up the material wealth of the Territory.

We are sorry to note a disposition on the part of certain persons in this city to prevent the taking up of homesteads even where the land is not claimed to be within the city limits. A few weeks since a gentleman, laboring under the impression that he was within the limits of the United States, went over on the other side of the Jordan, several miles from the city, and took up a quarter section of land, upon which there was no improvement, and which had never been occupied. Upon this homestead he built a substantial house, and was about moving into it with his family, with the intention of engaging in agricultural pursuits, when his premises were visited during the night, the house torn down, and the material probably thrown into the Jordan river, as not a vestige of the building could be found.

For this high handed act we have never heard of a word of condemnation from the Polygamist press or people; in fact they appear to give a tacit approval to the proceedings. We must confess that we had reason to expect something different from those who have been such vehement denouncers of persecution during the last thirty years. But like many others, who have recently taken up their abode in this "the most peaceable community in the Union," we were doomed to grievous disappointment.

We would advise all persons to be cautious how they proceed in this vexed matter, as the confirmation of titles will, in a great measure, depend upon the future action of the Government, and those parties who pay the greatest regard to the laws and regulations of the General Land Office will undoubtedly come out ahead.

### GOOD FOR PAHRANAGAT.

A Stage Line Established Between This City and the Mines.

A few days since we noticed the establishment of a stage line by Keith & Tilden between this city and Fillmore. Since that time a new enterprise has been started under the management of that veteran stage, W. Reynolds, late Superintendent of the Holiday Overland Mail & Express Company, by which the line to Fillmore has been purchased and extended to Pahranagat.

Yesterday the stock, coaches, &c., for the new line, left this city, and Mr. Reynolds follows to-day to complete the organization, so that within a few days we shall have tri-weekly coaches running through to Pahranagat in five days' time. The coaches and stock are first class, and too much credit cannot be awarded to the new company for their enterprise in this matter.

The fare from this city through to Pahranagat will be \$75.

### From Daotah.

Fort Connor, D. T., July 4, '06.  
The day prior to our arrival, some eight or ten Indians came within half a mile of the garrison, and drove from under the eye of the skullduggery border, thirty-eight head of horses and mules, with which they made off toward Pumpkin Butte, some twenty miles east. They were so closely pursued by a party of the 10th Mounted Infantry, under the guidance of Mr. J. L. Branson, that they were compelled to abandon one pony, one mule and traps.

Some days ago the paymaster brought in a report that a pilgrim train had their herd stricken on the old California road near Deer Creek. The pilgrims killed one and wounded one Indian, without any loss on their part. Two head of stock were also driven from Brider's Ferry, the day before Carrington's command arrived there. A friendly Indian

harried his horse and chased the thieves away. These depredations are committed by renegade Indians, who make a life of plunder and to continue our readers that travelers are safe—and with a little care their stock also—with two men, have crossed from Laramie to this point, traveling slowly and camping at night, and we have not seen an Indian since the mountain men's families.

Until recently this post was known as Fort Connor. An order from the War Department changed it to Reno, and now Carrington's command is, pursuant to orders, en route to Clear (or Piney) Creek, 43 miles north, to re-establish Fort Reno there, hence I date from Fort Connor as the appropriate name for this place, it having been built by General Connor on his expedition last year. This post is situated on Powder river, about two hundred miles from its mouth, and one hundred from its head, which springs from the southwestern end of Big Horn Mountains. Here the river is small, muddy, easily crossed and densely timbered. The snow-capped peak of Big Horn chola looms up to the west, some 60 miles distant, while Pumpkin Butte rises the high, dry prairie as the eye scans the eastern horizon.

Settlers in Gallatin Valley, Montana, are shipping moving and other newly patented agricultural implements, up the Missouri, and extensive farming is being inaugurated in that far-off Eden.

The famous Col. James Bridger is our guide, with assistants Brannon and Williams.

The great six hundred mile cut-off is now being shortened by this expedition, so that Laramie will be brought within 400 miles of Virginia City, Montana, with a good natural road, no mountains to cross, and new military posts to protect it in case of any renewal of hostilities.

L. R. F.

### BY PACIFIC TELEGRAPH.

(SPECIAL TO THE DAILY UNION-VERDETT.)

### The Tariff Bill.

Progress of the Cholera in New York.

The Reform Demonstration in England.

Progress of the Peace Negotiations on the Continent.

Chicago, Aug. 6.  
The amendatory tariff law is published. It contains only those rates of duty heretofore telegraphed, without anything said about wool, and is chiefly filled with administrative sections on law points.

The following is the section which attracts the most attention:  
Sec. 2. That on determining the dutiable value of merchandise hereafter imported, there shall be added to the cost or to the actual wholesale price or the general market value at the time of exportation in the principal markets of the country from whence the same shall have been imported into the United States, the cost of transportation, shipment and transshipment, with all expenses included from the place of production or manufacture, whether by land or water, to the vessel in which the shipment is made to the United States. The sacks, boxes or coverings of any kind in which such goods are contained at the usual rates, but in no case at less than two and half per centum. Brokerage, export duty and all other actual or usual charges for putting up, preparing and packing for transportation and shipment, and all charges of a general character incurred in the purchase of a general invoice, shall be distributed pro rata among all parts of such invoice, and every part thereof charged with duties on value, shall be advanced according to its proportion, and all wines or other articles paying specific duty by grades shall be graded and paid duty according to actual value so determined; provided that all additions made to the entered value of merchandise for charges shall be regarded as a part of the actual value of such merchandise, and if such addition shall exceed by ten per centum the value so declared in the entry, in addition to the duties imposed by law, there shall be levied, collected and paid a duty of twenty per centum on such value; provided, that the duty shall in no case be issued upon an amount less than the invoice or entered value; provided, further, that nothing herein contained shall apply to long combing or carpet wools costing 12 cents or less per pound, in which case one cent per pound duty shall be added.

The Military Commission appointed to inquire into the late disturbances in this city are still pursuing their investigations. They have already examined a large number of witnesses. The Commission will sit until they have had a thorough investigation of the whole affair. Business is reviving considerably. Cotton 37a38c for middling.

Sheridan has telegraphed three dispatches to General Grant, only one of which has been published. The other two are said to be in quite a different strain, and that he objects to the dispatches telegraphed by the President to Attorney General Herron on the 30th ult.

The statement of the public debt on August 1st shows \$277,500,000, with \$137,000,000 cash in the Treasury. The net reduction of the debt since a year ago is \$24,000,000.

New York, August 6.  
Cholera in the city has not seemingly abated, for the 24 hours to seven o'clock last eve 29 official cases and 9 deaths were, during that period, reported; in Brooklyn great difficulty was experienced in obtaining correct returns on Sunday, owing to the alleged laxity or mismanagement of Sanitary officials. Three deaths of previously reported cases had occurred on Governor's Island. No additional cases were mentioned.

Advices by the steamer Germania contain the following paragraphs in confirmation of the news briefly announced by the cable:

The great reform demonstration took place in Hyde Park on the 23d, 1906 police and two companies of the Life Guards were called out, nothing very serious occurred. Austria has accepted preliminary of peace submitted by Prussia. Philadelphia had assembled at the Prussian Headquarters to negotiate for an armistice.

An "affair of honor" lately occurred between Col. Hall and Judge Raebough, two leading Idaho City lawyers. Shots were exchanged, but no damage done. Now things have been discovered in the Burnt River region. Indians are quiet and politics lively.

Italy's definite reply was expected, she already admitted, in principle, the peace preliminaries.

The preliminary proposed by Prussia and approved by France, and Austria is to recognize the dissolution of the former German Bund and the consequent loss of the new confederation, from which Austria is excluded.

Austria agrees to North Germany to form a union under Prussia's direction, the annexation of the Danube to Prussia, excepting the Danube-Scheldt, with payment by Austria of the expenses of the maintenance of Austria's integrity, accepting Venetia.

Prussia intends annexing a territory containing 3,000,000 of people. Cincinnati, August 6.  
The cholera has assumed an epidemic form since the 1st, 64 deaths are reported; yesterday the number of deaths reached 24. The cases were occurring at an unfavorable weather being cool and unfavorable. Thermometer this morning marked 64°.

New York, August 6.  
The Post's money article says money continues easy; gold more firm; stocks and 5-20's of the original issue, are in demand; bank statement shows an increase of loans of 196,000, decrease, specie, \$58,000; increase in circulation \$6,000, decrease in deposits \$28,000; decrease in legal tenders, 470,000; cotton dull and easier at 35½¢; flour dull at 10¢25; lower trade brands closing heavy at 9.50¢11.40.

20 cases and 4 deaths, of cholera, in this city and 8 cases and 1 death in the city of Brooklyn were reported at noon to-day.

Additional news by the Germania: Manteufel insists on the immediate payment of 25,000,000 florins, threatening to deliver Frankfurt up to pillage in the event of non-compliance. The house and warehouses were closed. The Frankfurt Chamber refused to pay the 25,000,000 florins, and prefer submitting to pillage. The city has solicited the intervention of Napoleon and the English Cabinet.

The Patrie says the terms of armistice, as regards Italy, stipulate for the occupation of Verona by Italian troops.

A telegram from Brun says, on marching from Brun the Prussian army discovered in front, in every direction, pickets of the enemy's cavalry, who retired as the Prussians advanced. The bridges across the Thaya and March were restored by the Prussians in 24 hours. The Mondel brigade, which had entrenched itself in Lundenberg, has evacuated the town without resistance and proceeded south. During the few days preceding the occupation of Gading, by the Prussians, 38 trains, heavily freighted with troops, passed through that town for the south. The six last trains conveyed soldiers of the Saxon army. The vanguard of the 2d Reserve Corps has arrived at the Hof, in Bavaria, by forced marches. They took sixty prisoners and immediately commenced restoring railway communication.

Philadelphia, August 6.  
At 4 P. M. 14 new cases and 4 deaths to noon to-day; the number of deaths by cholera during the week is 47.

St. Louis, August 6.  
20 cases are reported since Saturday, mainly persons from the South; the sanitary condition of the city is good. No alarm felt.

California Items.  
The bell used by the Vigilance Committee in San Francisco now hangs in the Pioneer Hall.

There are twenty-seven mercantile firms in Nevada county whose sales amount to \$50,000 and upwards.

Stockton is improving rapidly since the work on the railroad has been commenced.

Georgetown, for some years all but defunct, is springing into new life. Quariz gives it vitality.

A very severe earthquake shock was experienced in San Bernardino at midnight on the 21st ult.

Two hundred new buildings, it is said have been erected in Grass Valley within a year.

The Wilmington Journal says that workmen are engaged in erecting the Catholic College of Los Angeles. At present only one wing will be built, which will probably cost \$8,000.

J. Walter Walsh, publishers of the San Francisco Sunday Varieties, was convicted in the San Francisco County Court, July 27th, of libel, in having published an article reflecting on one Sheldon, of Sheldon & Lloyd's dancing academy.

D. C. McKuer telegraphs from Washington to the Trustees of the town of Santa Cruz that the bill has passed granting free title to the lands within the corporation limits, thus settling the land title question in Santa Cruz. The bill takes in an area of about 3,300 acres, and grants a clear title, free gift, to the actual occupants or claimants.

Senator Connors telegraphs to the Sacramento Union, under date of July 23d, that the bill to legalize the occupation of the mineral lands and to extend the right of pre-emption thereto, had become a law. The bill passed the House, as it did the Senate, without amendment.

GREENBACKS.—We wish some writer who is qualified for the task would explain to us what law of "trade" or "demand and supply" keeps down the value of the national currency. Uncle Sam's hole of hard is now worth only about two-thirds of its face, while the note of a private individual for any sum which is able to pay, is always worth at least within a small fraction of the amount specified. If a man is known to possess tangible property worth a thousand dollars, his note for a hundred will always bring in coin very nearly that sum in market. Why this difference? Uncle Sam's wealth is twenty times greater than his indebtedness, and yet his paper is at 30 or 40 per cent. discount, while even a poor editor's stands at par. So long as the war lasted, and there was even a remote doubt of its issue, there was a reason for depreciation of the Nation's promise to pay. Now there is none that we can see, as the whole world knows that the nation is not only able but willing to pay to the last dollar, all its obligations.—Napa Register.

From Idaho.

An "affair of honor" lately occurred between Col. Hall and Judge Raebough, two leading Idaho City lawyers. Shots were exchanged, but no damage done. Now things have been discovered in the Burnt River region. Indians are quiet and politics lively.

1906.  
**GILBERT & SONS,**  
East Temple Street,  
GREAT SALT LAKE CITY.

Have opened their immense stock of Goods, purchased at the lowest prices, and which they now offer to.

# From Nevada.

On the evening of the 1st a fire broke out in the clothing store of A. Wolf and did \$3,000 damage.

From the Platte.

From the Ft. Kearney Herald of the 27th ult. we obtain the following items:

Trains organized and passing West of Kearney:

July 24.—Conductor H. L. Kelly; 51 wagons, 38 men, 32 revolvers, 21 guns; bound for Virginia City, Montana.

Cond. E. R. Lee; 31 wagons, 34 men, 10 revolvers, 35 guns; bound for Salt Lake.

Cond. W. H. Chittman; 62 wagons, 69 men, 68 revolvers, 64 guns; bound for Salt Lake.

Cond. H. Whitmore; 39 wagons, 42 men, 14 revolvers, 36 guns; bound for Salt Lake.

July 26.—Cond. B. L. Burns; 33 wagons, 31 men, 25 revolvers, 19 guns; bound for Salt Lake.

A detachment of Co. D, 21st New York Cavalry, passed through here Wednesday morning, on their way to the States.

Progress of the Pacific Railroad.

A correspondent of the Nevada Transcript, who lately reached the town of Alta on the cars, says:

"The Railroad Company has, in the face of mighty opposition, put an effective force in the field, negotiated its securities, purchased abundant materials and has to day as good a road from Sacramento to Dutch Flat as there is in the United States. The labor has been heretofore, but with almost insurmountable physical obstacles ahead, and sharp and continuous fire in the rear, the great enterprise has gone on, and the evidences are present all along the line of the road that the work has been hastened in an uncommon degree. Ten thousand laborers are now employed between Alta and the summit, and the company is anxious to hire three thousand more. Twenty miles more of track will be shortly laid, and it is the determination of the managing men of the company that the iron horse shall overlook the valleys of the State of Nevada by the first of January."

Stockton.—We are pleased to notice by the following from the Stockton Independent, that the city of Stockton is increasing in population and all the main elements of prosperity:

There can be no doubt that Stockton is steadily increasing in wealth and population—a fact apparent to all conversant with its career for several years past. Indeed, it could hardly be otherwise. The opening up of immense copper mines to the east and south of this country, the freight of which all passes through, this city; the uniform success attending the labors of our farmers and ranchmen—all combine to add to the business and prosperity of Stockton. When we shall be blessed with railroad communication with the great copper and gold region of Calaveras and Toulumene counties, which will be the case before long, a new impetus will be given to all branches of industry and trade, and Stockton will rank second to no city, outside of San Francisco, in this State. Manufactures will follow rapidly on the heels of the iron horse, and labor and capital will find new fields for investment.

[Special Dispatch to the Missouri Democrat.]

St. Joseph, July 24.

The affair at Ketchum, Idaho, in Andrew county, on Sunday, in which Pope was killed and Metcalf wounded, grew out of opposition to allowing Rev. Mr. Miller, a minister of rebel proclivities, to preach in that church. The friends of Miller were around, and provoked the affray. Pope and Metcalf were Union soldiers.

Arrivals and Departures.
